Andijon Yoshlar Texno Parki

Dec 2023 - Present

Software developer mentor

I teach the students about the field of programming and its types as well as the backend of programming. My colleagues and I are mainly working on projects there.

Jun 2024 - Present

Navruz designn company full stack

I work in a full stack position at Navruz Design Company. We are currently writing a CRM dashboard for business and will focus more on our Startapp. We are running our startup to identify patient queues and unqualified doctors in their field.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Engineering

I study in the 2nd year at the institute. I am on the 2nd place in the student rating. My JPA score is currently 5. I have written articles in my field and on topics outside my field with the help of my teachers.

I was awarded the gold medal of the Ministry of Public Education of the Republic of Uzbekistan.

EXTRACURRICULAR ACTIVITIES

Community Volunteer

I have been regularly participating in organizational events in society, giving solutions and proposals to many problems.
